

Cooking activities for all ages

Basic Bread Recipe (no yeast)

Ingredients

- 500 g plain flour (regular cake or all purpose flour **not** bread or wholewheat / wholegrain)
 - 2 tsp baking powder
 - 1 tsp salt
 - 310 ml milk (or water with a spoon of oil or melted butter)
-
- Heat the oven to 190°C Fan (210C (regular) / 375°F / Gas Mark 6. Place a baking stone or heavy baking sheet in the oven to heat.
 - Mix the dry ingredients. Stir in the milk, and bring the dough together by stirring the ingredients until the milk is mixed with with flour and forms a dough. It's easiest to do this with your hands rather than a wooden spoon.
 - Turn the dough out onto your work surface and knead briefly until the dough has a uniform consistency.
 - Shape the dough into a round disc about an inch to an inch and a half (about 3cm) thick and deeply score the top with an X.

This is important! Don't make a round ball of dough as it won't cook in the middle.

- Bake on the hot stone or baking sheet at for about 35 minutes until pale brown and sounding hollow when tapped on the bottom.

Notes

- **Important! We cannot stress enough that the dough needs to be a flat pancake - not more than 1.5" (3cm) deep when it goes into the oven, or it will not cook properly in the middle.**
- If you don't have milk you can make some up with powdered milk, mix up yogurt and water, or use water with a spoon of oil or melted butter or spread.

CAN I MAKE A VEGAN NO YEAST LOAF?

Absolutely yes! Use your favourite soy or nut milk, and add one tablespoon of lemon juice just before mixing the dough.

CAN I MAKE EMERGENCY NO YEAST BREAD WITH GLUTEN FREE FLOUR?

This recipe doesn't work with gluten free wheat flour, so I'm afraid not. Sorry! We are working on it though, so watch this space!

I'M OUT OF MILK! WHAT CAN I DO?

You can use a **50:50** mixture of **yogurt** and **water** instead. Mix the two well together before adding to the flour. Or you can make up some **powdered milk**, as per the packet instructions, and use that.

USE WATER INSTEAD OF MILK

If you don't have milk, yogurt, or milk powder you can make this bread with water and half a tablespoon of vegetable oil, or a knob of melted butter, margarine or baking spread. The milk makes it fluffier, lighter and softer, but at a pinch water and oil will do.

CAN I FREEZE EMERGENCY NO YEAST BREAD?

Yes – this **no yeast bread freezes well** – I like to **slice it**, wrap in a plastic bag, freeze, then **toast from frozen**.

CAN I MAKE EMERGENCY NO YEAST BREAD USING CUP MEASURES?

Yes! **Don't mix cups and metric measurements**, but 3 1/3 cups of flour, 10 fl oz of milk and the same amounts of baking powder and salt – 2 tsp and 1 tsp respectively will work.

Bread Rolls, Hedgehogs and snails.

Ingredients: 2 mugs of bread flour, 1 tsp salt, 1 tsp sugar, 1 tsp yeast, half a pint of lukewarm water.

Optional: some raisins for eyes.

Preparatory work: Make the bread dough by pouring all ingredients, apart from the water, into a bowl. Make a dip in the flour, pour in some flour and start mixing. Slowly add more water until a soft, slightly sticky dough is formed. Knead for a few minutes, cover with a clean damp kitchen towel or foil and leave to rise for about an hour. Oil some baking trays. Preheat the oven to hot temperature (200/220 degrees Celsius).

Put on aprons. **Wash hands.** Sprinkle some flour onto a clean surface. Give children a small ball of dough, they can knead this into any shape if very little. Put these shapes onto a separate baking tray, as under fours are likely to put dough into their little mouths. Older children can roll the dough into a long 'worm' shape with their hands. Roll up into a spiral for snails. For hedgehogs, form the dough into an egg shape. The tapered end will become the nose and the round end the bottom of the hedgehog. With scissors, cut 'spikes' into the dough at the top. You can add raising to create the eyes or make small indentations in the dough.

Cover the tray with a clean damp kitchen towel or foil and leave to rise for half an hour

Bake until golden brown, about 10 minutes or slightly longer if the rolls are very large. Lovely warm from the oven with butter or butter and jam!
